

SURFACE SOLUTIONS = by Nevamar®

Design Without Boundaries

There is nothing more important than your time. Our Nevamar® brand has extensive surfacing options and our Surface Solutions Bar is here to keep you informed of ways to optimize design and performance at within budget. Simply put, you can now coordinate any one color through a facility while using various materials based on performance needs. With our patented ARMORED PROTECTION® (APP) finish, Nevamar® exceeds the NEMA abrasion standards by more than double the standard industry performance. Design without boundaries and discover solutions never before imagined with Nevamar®. Our Nevamar® brand is designed to save you time and money.

FRL® - Fiber Reinforced Laminate

FRL is a patented high-impact self protection product. It offers solid construction with fiberglass reinforcement, Class A fire rated for flame spread and smoke development, durability and easy to clean surface. The superior performance of Panolam FRL is designed to stand up to high traffic and high impact environments.

TFL - Thermally Fused Laminate

TFL (formerly known as TFM) is as durable as vertical-grade laminate offered at a lower cost, without sacrificing quality. TFL is resistant to stains and abrasion and is a value-added alternative to your surfacing needs. TFL is available in most of the colors from the Nevamar line.

THICKLAM™ - Thick Phenolic

The unmatched strength of ThickLam™ makes it the preferred choice in any installation requiring a flat, freestanding, structural panel. Available in a range of thicknesses, its sharp, granitic core is laminated on both sides and ready for installation without the need for a substrate. ThickLam™ is manufactured to order in any Nevamar® design.

MelCor II®

Using our patented process, MelCor II® is the color-through laminate from Nevamar that provides continuous color and avoids a dark line in your finished product. MelCor II® is also available in multi-toned or sandwch colors that can provide interesting bending, engraving and groove techniques.

CUSTOM DIGITAL

Expand your creative vision. Nevamar's custom digital graphics are ideal for wall murals, features and displays. Whether your design calls for a unique photo, company logo or one-of-a-kind illustration, we have the skill and technology to produce your design with the same durability and performance found in our standard colors.
